

HKCT Academic Pavilion

Introduction

At CTIHE, we believe library services are not only for physical collections, but also for the building up of an integrated learning environment. Our core value of services lies in discovery, learning and sharing of knowledge.

The Academic Pavilion (HKCT Jockey Club Undergraduate Campus) and the Knowledge & Information Centre (HKCT Mong Kok East Campus) emphasized creativity in their design for the provision of book lending services for study purposes. Facilities such as self-study carrels, group discussion rooms, display corner, outside reading area as well as numerous computer workstations are made available for students to learn and access to abundant information from the Internet and electronic resources in a relaxing atmosphere. Students can freely enjoy academic exchanges and discussions.

Academic Pavilion

The Academic Pavilion will have the extended reference services and to enhance students' skills in information literacy. Besides, students will be able to learn the tactful skills for searching relevant information from electronic resources and library materials in the Information Literacy Workshops. The Academic Pavilion integrates students, computer equipments, information resources, and librarians together to create a joyous atmosphere of learning.

The Academic Courtyard and Learning Commons

Apart from the courtyard located on the outdoor of the Academic Pavilion, the natural environment will be used to encourage students and academic staff to sit outdoors, offer opportunities for personal interaction and facilitate a dynamic learning community. The Learning Commons is a large learning space with Wi-Fi internet network system. Students will be able to search electronic information resources for e-learning purpose. There are different components of furniture to satisfy different types of learning preferences. It is a place of learning and sharing for students and teaching staff.
